WHEELER & WILSON Invasion of Canada by the Fenians, BUFFALO, June 1.—Several regiments of Fenians crossed over into Canada last night, including troops from Kentucky, Tennessee and Indiana, and a regiment from Ohio; also a regiment from this city. At this point they crossed over in canal boats, drawn by tugs, and when nearing the Canadian side, sent up wild Irish cheers, with the green flag floating.

Boston, June 1.—Major Mahon, who served during the war in a Massachusetts regiment, has been commissioned as a Brigadier General to command the Fenian volunteers from this State, and will leave for the border to-morrow morning.

It is supposed that about 250 Fenians left by the northern train to-night.

The Fenin circles ramify through all the provivces, and are understood to be The Fenian circles ramify through all the provivees, and are understood to be acting in concert with their brethren from the American side. This, it is supposed, will tend to overthrow the confidence of the authorities in any endeavor to resist the invader by aid of the militia or from regular troops. There are but six thousand of them, of whom a large proportion are in full sympathy and fellowship with the Fenians. There is therefore, reason, according to official authorities, to anticipate an early uprising of the Canadian population, and a fraternizing of the British soldiers with the people, as in the days of the barricades in Paris. It is also claimed that not only the Irish inhabitants of the provinces, but the French Canadians, are connected with this conspiracy, and will, at the proper time, add their co-operation. It is possible, though, that the occupation of Fort Erie is but an attempt to direct attention, while a blow more decisive will be struck at a more vital point of the British empire in North America. In that event we may expect to see the lesser States of Canada responding at an early day to the call of the Fenians. effected a landing in Canada from this point, and are hourly receiving accessions both in Canada and from this shore. They are well armed, and have six pieces of artillery. It is said to be a general descent along the whole fronter, and that the Fenians have as many as thirteen batteries of artillery in Canada. The Fenians have telegraphed from this point to the various cities to bring on the men and goods, that a landing had been effected. The men that went from here were apparently picked, most of them said to have served in the federal or confederate armies. No decisive action or even

Boston, June 1.—Two companies of regulars left here this morning for St. Albans, under command of Col. Livingston. An additional detachment of about 100 Fenians left, it is supposed, for the Canada border.

Fifteen hundred men is the alleged Fenian quota of Massachusetts for the present enterprise. A newly raised Fenian cavalry regiment, under command of Col. Icortai, late of Mosby's guerrillas, is part of the expedition from this city. The Fenians say that Gen. Fitzhugh Lee will command the cavalry wing of their army of invasion. In addition to the Fenian cavalry regiment, the 3d Fenian infantry, Col. Conner, 1,200 strong, have left this city for the Canada border. Transportation for the cavalry regiment was paid through to St. Albans by a citizen of Boston. Roberts called upon that officer yesterday for an explanation as to how he became the possessor of it as he (Col. Roberts) had never seen it. Marshal Murray explained that it was addressed to box 5,147, the box of a merchant who opened and handed it over to him. The Fenian box is 5,141. This explanation Col. Roberts regards as very unsatisfactory and very unlikely, and also takes the Marshal to task for making the letter public, claiming that by 'so takes the Marshal to task for making the letter public, claiming that by so doing he shows himself to be in the service of the English.
